Ottawa, Week by Week

(By DEAN WILSON)

Shadows of Coming Events

Following in the wake of the enemy's demerits in Europe, it is expected in well-informed quarters on Parliament Hill that some wartime conditions may be changed in line with the new circumstances, but others may be forthcoming in different directions. Thus, it is indicated that for some time it has been known in Ottawa that the Canadian Army's demerits in Europe, as a result of "first-in-first-out" would most likely be applied to home defence personnel, in the same way as it did to general servicemen. Then again, preparations in fitting Canadian ships detailed for duty in tropical waters, to have living conditions equal in comfort to ships of the Royal Navy or the United States Navy, for the reminder of the war to be played by Canada in the war against Japan: though it is said that the Australian are resentful about Canada's attitude in the Pacific war, since Premier King's announcement that Canadian volunteers would be used by this country in this theatre of war, a statement which has created difficulties in Europe would bring certain changes in wartime conditions, but there are no hints in different directions, with the two aforementioned instances stressing in Ottawa the fact that the relaxation of one may be balanced by strengthening of the effort in the other.

Political Campaigns

Prior to the Victory Loan campaign, it had been held in Ottawa that political campaigns during the war would be held at the end of the Loan drive on May 12th, so that it has caused considerable surprise that such a campaign would be held before the conclusion of the Victory Loan drive. Information from the capital has revealed that there was no particular reason for this change of plans, except that it had been found by the authorities that it was impossible to carry out a campaign in the drive before such political tactics commenced if the allotted time was to be used to the advantage. After a meeting between officials of the Canadian Broadcasting Corporation and party representatives in Ottawa, it was an agreement about the allotment of free time among the political parties on the Canadian networks during the forthcoming Dominion and Ontario elections. In accord with the "white paper" issued some months ago by the CBC. At that time, it was said that in order that a political party shall have free time for broadcasts in a Federal campaign, the party must have 40 or more candidates in the field in at least three provinces across the country. Therefore, on this basis, 144 hours of free time has been allowed on the national networks for this purpose, and the Liberals getting 61 hours, Progressive - Conservatives 38, C.P.F. 34, United Farmers, Social Credit as well as Labor Progressives one hour each, with the Liberal broadcast being starting on May 4 instead of after the Victory Loan campaign had ended, the real reason mentioned previously here.

Wong Report

Notwithstanding a widely distributed report from Ottawa that the rationing of meat policy in Canada would be the responsibility of the chairman of the Wartime Prices and Control Board, Donald Gordon, yet it must be stressed that information in the (Continued on page 10)

GERMAN HIGH COMMAND SIGNS ALLIED TERMS

Message from the Provincial Chairman, War Finance Committee, Calgary

The German High Command complied with the demand of the Allied Nations by signing the terms of "unconditional surrender" of all land, sea and air forces of the Reich on Monday, May 7th, following the series of disastrous defeats inflicted on those forces by the Allies.

P. E. O'Connor, Chairman of the Provincial War Finance Committee, desires that the following message be given publicly:

With the news of the surrender of the German armed forces, many of our citizens may be in error concerning that the need for back-remembering our government by means of the 8th Victory Loan campaign is over. It should be exceedingly unfortunate if such an impression should prevail. Guerrilla fighting, police enemy countries, caring for our wounded and for many prisoners of war, and aiding starving millions in allied countries will require immense sums of money for happier uses, such as bringing our boys home with transportation, maintaining out-of-pocket expenses, and equally immense sums will be needed over the next six months.

Let's finish the job now and say thanks by heavy over-subscription to the 8th Victory Loan.

MAY TIME DUTIES IN THE GARDEN

Lethbridge Experimental Station, Weir, Lethbridge

There are a number of things to be done in the garden in late May and early June, when danger of frost is over and there can be thought about putting out the plants which should be started in the garden, such as lettuce, cabbage and corn.

Seedling plants, such as lettuce, cabbage and corn, which have been started indoors, should be transplanted in beds, beds, or frames. These should be planted about two inches apart each row. This will encourage harder, more robust plants with a better root system. Before these plants are put out in the garden, they should be hardened off by putting the plants in a cold frame or a protected spot, taking care to protect them at night. The garden plants that are in the beds, remove the wire mesh from the beds.

The soil around the seedlings should be quite moist before they are lifted and set out in the garden. The roots should be disturbed as little as possible, and the seedlings should be lifted with care, so that they will not be damaged. The plants should be set out in the garden, and the soil around them should be firm and well packed. A top layer should then be added to prevent the ground from crusting.

Now that the weather is warmer, daffodils and gladioli can be planted. Also, depending on the frost, they have been found to be about the best time in the Lethbridge area for planting the daffodils. The daffodils should be divided before they are planted, but are not to be taken that is on each piece of the crown otherwise they will not send out buds.

The gladioli corms to be planted should be divided into three parts. The two most generally used "before planting" treatments are carbolic acid and formalin. The carbolic acid treatment is the most common, and the formalin treatment is the most effective. The carbolic acid treatment is the most common, and the formalin treatment is the most effective.

The month of May is a good time to begin that summer weeding. By starting early, one can get a start on the weeds and so have a better chance of keeping them down.

DELIA VICTORY DAY CELEBRATION

Victory Day in Delia was celebrated by a general display of bunting and observation of the general holiday.

MORE FLAX NEEDED

There is a definite need for more flax in Canada, and flax is the most important of producing crops now being grown in this country. When flax is grown under favorable soil and moisture conditions, it can usually be expected to yield as much as 100 bushels per acre.

One of the most important things to keep in mind, however, is that the flax should be sown in the first week of the month of May. If it is sown later, the yield will be reduced.

8th VICTORY LOAN

Amount Subscribed up until Wednesday, May 9th:

Excessed \$1,000.00
Balance \$1,000.00
Total \$2,000.00

DELIA GOES OVER THE TOP IN 8th VICTORY LOAN

Just before going to press it was learned that the Delia district had over-subscribed the quota of \$135,000. This is very gratifying to the local committee, since the amount raised in the district in the Eighth Victory Loan is greater by almost one-half the quota for the Seventh Victory Loan, being \$100,000.

To raise an extra \$35,000 (and more), at this stage of the world conflict, reflects great credit on both salesmen and the spirit of the public in the district.

Living Costs In Canada

Canada's index of living costs, on a basis of 1925-26 equals 100, at the end of 1944 was 118.6 in February, 1945, to 118.7 in March. This was a wartime increase of 17.8 per cent. The increase since price control was imposed in December, 1941, has been only 2.6 per cent.

Teamwork is Democracy's answer to class war

"Time Bombs"

War is the price of selfishness of nations. It is just one way of doing it responsibly.

Making peace is not just writing an agreement. It is living in agreement and that's something else again.

We used to assume a public responsibility in every private decision.

Peace isn't just the ending of differences. It's ending indifference.

It is easier to make good laws than good men. But the results are not equal.

Tolerance may take a matter of course what yesterday was just plain common.

To show the way means to lead the way—and just to point it out.

The greatest battle is still to be fought—the battle against our own selfishness.

Family Allowances

The following announcement will help to clarify the relationship between Family Allowances and Income Tax credits for dependent children. Family Allowances are payable for July 1, 1945, and the registration of children is now taking place.

The Family Allowances Act was designed to help parents with dependent children, and when the Act was passed, Parliament approved the principle that there should be no duplication of benefits by way of Family Allowances and Income Tax credits for the same child. An amendment to the Income Tax Act will be made to deal with this duplication. In the meantime, however, the Government proposes, for the last six months of 1945 during which Family Allowances are payable, to remove duplication by adjusting the income tax credits received for dependent children, with the registration of children is now taking place.

It is natural that parents in the low income groups will be expected to receive maximum benefits from Family Allowances. Parental benefits will be received, however, by parents with incomes up to \$3,000.

The table below shows the effect of the adjustment which the Government has decided to make for convenience and simplicity the benefits received by each income group will be the same as the Family Allowances received. The table shows:

Family Allowances are payable for July 1, 1945, and the registration of children is now taking place.
